- Discover potential faults before they're a costly hazard

Full Service from £179.99*_{+vat} Interim Service from £99.99*_{+vat}
MOT Only £45

For peace of mind motoring this year, book your Vehicle Service.

Servicing your car on a regular basis can help eliminate the impact of wear and tear that can lead to a risk of a breakdown. The weather can be particularly damaging to your car if precautionary measures are not applied. Regular servicing can prove to be an invaluable procedure, by ensuring your vehicle is more reliable and safer to drive.

The majority of the road safety organisations advise having your car serviced regularly. M4 Vehicle Service includes oil and filters change, check and top ups of all under the bonnet fluid levels, and thorough inspection on tyres, lights, brakes, coolant and the battery conditions. In other words, all the maintenance essentials are covered... and a whole lot more!
